MOTORCYCLISTS BACK HOME FROM THE WEST Weeks' Trip to Columbus, O.,

Was Greatly Enjoyed. After an enjoyable and interesting Charles Perry and Peter Desjardines, the three motorcyclists who left here Sept. 15 for Columbus, O., arrived home about 230 o'clock Monday afternoon. On leaving Norwich, they passed through Saybrook, Springfield, across the Berkshires to Albany, Utles Buffale and thence on to Colum. field, across the Berkshires to Albany, Utica, Buffalo and thence on to Columbus. On the outward journey they passed over what is known as Jacob's Ladder. This is a road in the Berkshires and passes over a high hill. The party went up one side of the hill and after leaving the top they coasted the entire distance down hill, about five miles, with their engines stopped. While in Columbus the party were royally treated. On their arrival they fun over by royally treated. The party were than over every department of the ending taken over every department of the concern, which is the largest bicycle manufacturing company in the country, and were greatly pleased with all they saw. Regretting that they could remain no longer, the three tourists started on the homeward path Thursday morning. Because of the delay in reaching Columbus, and as their time was limited, the trie thought it bear to was limited, the trio thought it best to proceed as far as New York by rall-road, which they did. They passed two nights and a day in New York and started from there for Norwich on their machines Sunday morning. Articles riving in Bridgeport about 10.45 o'clock, the party was obliged to stay in that city unit Monday morning on in that city unil Monday morning on account of the rain Sunday. Monday morning they left Bridgeport and arrived in this city about 2.20 o'clock.

The roads from here to Buffalo are excellent, but from there on they are not so good, being constructed of clay. Although the clay roads are fairly good to ride on in dry weather, they are very slippery and almost impassable in wet weather. Throughout the entire trip no trouble was experienced with the engines. They worked like clockwork and appear to be in as good condition as when the party started off on their long trip. The only machine delayed by a puncture was Mr. Stebbins' machine, and the other tourists covered the whole distance without a puncture. The men rode about 200 miles a day on the average. This is a record long distance run for motorcycles in Norwich, as no local machine has gone so far on a single trip.
